Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species I – Figs. 3-6;

Species II – Fig. 7; and

Species III – Fig. 8.

(Note: The seals shown in Figs. 1 and 2 are designated as “not of the invention” in the specification and therefore appear to represent prior art.)

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3677

2. The claims are deemed to correspond to the species listed above in the following manner: Independent claims 1 and 25 are exclusive to Species I, while independent claim 24 is exclusive to Species III. (Note: none of the independent claims appear to read on Species II.) The following claim(s) are generic: NONE.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The seal of Species I (Figs. 3-6) includes one sealing ring 8 or 19 having sealing lips 9,10 or 20,21 on the inner (Figs. 3-5) or outer (Fig. 6) circumferential face, respectively, and a brick bond arrangement of labyrinth seal structures 15,16. The seal of Species II (Fig. 7) includes two distinct cooperating sealing rings, one sealing ring 30 having inward facing sealing lips 31 and the other sealing ring 32 having outward facing sealing lips 33 wherein neither sealing ring is disclosed and/or shown as including a labyrinth seal(s). The seal of Species III (Fig. 8) includes one sealing ring having sealing lips 35,36 and 44,45 on both the inner and outer circumferential faces, respectively, and grooves 46-49 formed therein for providing a labyrinth seal.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William L. Miller whose telephone number is 703 305 3978. The examiner can normally be reached on Tuesday-Thursday.
